

## SIXTH FORM – SUBJECT INFORMATION

### Cambridge Technicals IT Level 3 – OCR

#### Entry Requirements:

5 GCSEs at grade 4 or above including English.

#### Is this course for me?

On this course you will gain an understanding of IT and cybersecurity. In both practical and project-based activities you will develop knowledge and skills in areas such as IT and Cyber Security. You will gain an insight into the IT business sector as you investigate the pace of technological change, IT infrastructure on a global scale, and the importance of legal and security considerations. The course is designed in collaboration with industry experts and the qualification focuses on the requirements that today's employers demand. You will also develop the transferable skills required in employment and further education such as communication, problem solving, time management, research and analytical skills.

#### Where does it lead?

Many of our students have gone on to study Computing, IT and Cybersecurity at university and others have been highly successful on apprenticeship schemes in a range of IT related industries. The focus on independent working and technological awareness are invaluable across a wide range of areas.

#### How will I be assessed?

You will be assessed at points throughout the two years by a combination of examinations and coursework projects and will have the opportunity to sit each examination a maximum of twice in order to achieve the maximum possible grade.
